Address:

Petaluma

Price:

1.00 \$

This cherrywood desk has numerous compartments (see interior photo), two small drawers below the dropdown desktop, a large compartment accessed by two sliding panels, and two large drawers below that. There are a few small nicks in the finish, mostly along drawer edges. I have no provenance information. I bought it in the 90s from a friend who bought it at an Asian antiques store in San Francisco.
